Thank you Robert, I appreciate the meeting and this makes sense. Please copy me on the response to Adam.

Thanks,
Mary

Subject: RE: Public Comment for Board of Supervisors – Student Transit Safety (Miller Creek Middle School)

Mary-

We met with Superintendent Treewater and CBO Henrio on Monday AM at 10am. We discussed the issue and agreed that the bus is well timed for the PM departure for students traveling south (~25 minutes after PM bell time). We also agreed that overall, the transition from yellow bus to public transit has been successful and we've heard many positive comments from parents.

The comment about the bus just missing students and not waiting occurs either when (1) the southbound bus scheduled to arrive 10 minutes before the PM bell time gets delayed by 12-15 minutes and passes right as students are being dismissed or (2) the northbound bus is observed going the opposite direction.

The Superintendent asked her Board if they wanted to agendize and they declined. They followed up with an email back to that I have not seen. We will be sending our response shortly.

Please feel free to call my cell if you'd like to further discuss. I'll be tied up starting at 4:50 – 6p.
